

## A CRIPPLE FROM RHEUMATISM

RIDGETOWN, ONT., May 21st. 1913.  
"Your 'Fruit-a-tives' cured me of Rheumatism. It was the only medicine that made any impression on me. I was a terrible sufferer from Rheumatism. I was laid up for four winters with Sciatica and Muscular Rheumatism, and was

a cripple completely, not being able to do anything. I doctored with four dif-

erent physicians, but they did not help me. Other advertised remedies were equally unsatisfactory, and I have taken several.

Some neighbor of mine told me that "Fruit-a-tives" helped him, and I took them faithfully every day and the result was marvellous. For over two years now, I have been free from any Rheumatic pains whatever, and give "Fruit-a-tives" that credit for making a remarkable cure".

W. T. RACHER

If you are subject to Rheumatic Attacks, Sciatica, Lumbago or Neuralgia, take "Fruit-a-tives" right now and start the permanent cure which "Fruit-a-tives" will complete if taken faithfully.

erent physicians, but they did not help me. Other advertised remedies were equally unsatisfactory, and I have taken several.

Some neighbor of mine told me that "Fruit-a-tives" helped him, and I took them faithfully every day and the result was marvellous. For over two years now, I have been free from any Rheumatic pains whatever, and give "Fruit-a-tives" that credit for making a remarkable cure".

W. T. RACHER

If you are subject to Rheumatic Attacks, Sciatica, Lumbago or Neuralgia, take "Fruit-a-tives" right now and start the permanent cure which "Fruit-a-tives" will complete if taken faithfully.

Continuing, Mr. Maxwell said, in part: "Gas and Petroleum seem to have a common origin being nearly always closely associated, either in the same or closely connected reservoirs. This oil or gas must have been originally produced from the decay of organic matter.

**Decomposition Is Slow**  
Under and within these sedimentary rock deposits, the rate of decomposition is so slow that as an atom of gas is liberated an atom of mineral matter takes its place with the result that the gas is not lost. The rate of decomposition and many of the finest details of the plant or animal originally submerged are preserved. One of the best fossil deposits in Canada is in the oil sands of Alberta, where, and within the few weeks I have been here, several specimens from a fossiliferous rock recently opened up by the steam shovel on new railway construction or by the clearing of some right-of-way in the north of the town of Coronation Hills.

With regard to natural gas loss from the oil sands, large amounts are being affecting the quantity to be obtained.

1. Initial pressure of the gas  
2. The porosity of the gas bearing strata  
3. The thickness of the gas bearing strata  
4. At Bow Island the gas bearing strata is both of porous, or loose, construction, and of great depth (over 100 feet we are informed) hence the enormous flow of from nine to nearly ten million cubic feet per well per 24 hours.

**Medicine Hat Gas**

"At Medicine Hat the gas bearing strata is both of porous, or loose, construction about four million feet per 24 hours per well. From drillings at Cassano, and Medicine Hat, and at the Medicine Hat and Bow Island, it would appear that this particular stratum is a very extensive one, and toward the north and that the expectation of striking a big blow at Viking is amply warranted by geologic conditions. Under the most unfavorable and many unexpected conditions are met

THE FINEST DAIRY LUNCH IN THE NORTHWEST  
IN CONNECTION.

fields, but with further exploration of the district north of Edmonton and by determining the sources of the tar products on the Athabasca river, we may not be surprised if oil fields are found. "What we need in Alberta today to determine the future oil and gas resources are careful detailed surveys of the substructure, wherever it can be found exposed in the more probable oil or gas producing districts. "Even the most extreme pessimists

WHY ACID STOMACHS  
ARE DANGEROUS

Scientific Reports, April: Acid in the stomach is dangerous and frequent-

**Scientific Reports, April:** Acid in the stomach is dangerous and frequently fatal, because acid from its corrosive nature has a natural tendency to destroy the mucous lining of the stomach itself. No one intentionally swallows hydrochloric acid, but it is often present in large quantities as the result of food fermentation in the stomach resulting from the chemical action, which so frequently follows the eating of the daintiest and most tasty foods or the indulgence in any form of

fatal, because acid from its corrosive nature has a natural tendency to destroy the mucous lining of the stomach itself. No one intentionally swallows hydrochloric acid, but it is often present in large quantities as the result of food fermentation in the stomach, which so frequently follows the eating of the sweetest and most tasty fruits or the indulgence in any form of alcoholic stimulants, including beer, wine, liquors, etc. This fermentation causes pain, uneasiness and discomfort because of the acid which burns the red-hot iron, and the formation of a scum which distends the stomach, causing shortness of breath and palpitation of the heart. The trouble being entirely due to the unnatural condition of stomach contents, and not in any way

the fault of the stomach itself, physicians have adopted with marvelous success the plan of neutralizing the acid and stopping the fermentation by means of one teaspoonful of simple saturated magnesia taken in a little

the fault of the stomach itself. Physicians have adopted with marvelous success the plan of neutralizing the acid and stopping the fermentation by means of one teaspoonful of simple magnesia three or four times a day. Water immediately after eating or whenever discomfort is felt. The immediate relief following the use of bisulphated magnesia is striking proof of the contention of medical men that failure to digest food properly is almost invariably due to the acid condition of food contents, and in no way the fault of the stomach or vital organs.

section of the Easterly boundary of 29th Street (or 129th St.), produced across the right-of-way of the Edmonton, Yukon & Pacific Railway Company with the Northern boundary of the said right-of-way; hence North in a straight line 48.36 feet; hence West at right-angles a distance of three hundred (300) feet; thence South at

tion of the Eastern boundary of 20th Street for 12th St., produced across the street by the Pacific Railway Company with the Northern boundary of the said right-of-way, and thence North along the line of said right-of-way to the intersection of the said right-of-way with the Northern boundary of said right-of-way, thence West along the Northern boundary of said right-of-way to the point of commencement, and for leasing the same to the U. S. Forest Service, Limited, for the said site upon such terms and conditions as the Municipal Council of the said City of Edmonton may determine, and that no persons who claim that their lands will be injuriously affected must forthwith file a claim with the said City Clerk, dated at Edmonton, this 8th day of

(Signed) CHAS. ED. K. COX,  
City Clerk.

## Eskimos Lose Last Game to Vancouver: Heavyweight Wrestling Bouts Tonight at Bijou Theater

### NEWS OF THE WESTERN CANADA LEAGUE AND THE EDMONTON ESKIMOS

The Six Teams in the Twilight League Are All Hard at it at Their Various Training Camps—Eskimos and Vancouver Have Had Their Little Brawl, as Did the Quakers—Twist Soon Be May, and Then the Mad Dash for the Pennant.

Well, Lou Nordyke's Eskimos have as yet been unable to annex a game from the Vancouver Beavers. The first two games of the series went to the coast side. Monday they were given a 1-0 defeat and Tuesday they hit the dust 5 to 6. Russell, the young southpaw secured from Spokane, pitched Monday's game and allowed the Beavers only one hit, and the run that was scored against him was the result of a bad throw by Catcher Lecomte in an endeavor to catch the runner at third.

Tuesday's game was handled by Kilken, one of the new recruits of the season, who looks like a find. He was touched up for nine hits in the seven innings but was pitching to Vancouver's regular line of sluggers and his showing was creditable. In this game Dudley, the big infielder was the big noisemaker with the big stick for the Eskimos, rapping out a fine two-bagger but this availed him nothing as the next two men fanned.

The Calgary Irons are hitting the pace at Alameda, California, and so far have broken even on wins and losses. Last Sunday the Fremont high school team got to them for a 7-6 score, but the Irons came back on Monday and trimmed the kids to a fare ye well, the score being 17-4. Manager Devereaux held down the difficult corner on this occasion and his presence there seemed to steady the team. It was strictly a slugging match for the Irons and as the reports say, they knocked the pebble all over the lot.

Deacon White and Lou Nordyke are enthusiastic over the appearance of their two new pitchers secured from Spokane. Russell, a big southpaw, stands 6 feet 2 inches and weighs 160 pounds, and Spaulding (there's a good sport) name for you) is also a six-footer and hits the ball at 184. Both men are young and show a successful season with the Edmonton outfit.

Bill Hurley's Saskatoon Quakers have nothing on the Eskimos when it

### PAT CONNOLLY AND KID SANDOW WRESTLE TONIGHT

Splendid Program of Bouts Billied for Tonight in Bijou Theater.

Tonight in the Bijou theater at 8.30 to 9 score a few days ago against the Beavers, but the Vancouver scriber speak well of Hurley's crew of pitchers, and says that Ford fanned three men very neatly during his session in the box and showed some very deceptive shams. So much for the ex-Edmonton boy.

Of three games played against the Vancouver team, Hurley's Beavers managed to squeeze out one victory, following two previous defeats. The Quakers came away with a 2-3 score, with Collins, Slater and Fuldner doing the mound work. You'll bet Billy catch swelled an inch when he pulled that win, what?

Watchman, what of the night? Or, rather, Deacon, what of the Eskimos? There is not a baseball fan in Edmonton today but believe we are to see very last baseball team here this season that ever represented this city. We can feel it in the air. Every one can, and every represented this team under their wing and the flutter of the W. C. L. pennant can almost be heard in the dim distance. Another week and they'll be with us, less than that in fact. Then for the big hole at Diamond Park. Are you out yet, just watch us.

French Wrestler Loses  
Kansas City, April 9.—Gus Schenfeld of Baltimore, won from Raoul Du Rouen, the French wrestler here last night in straight falls. De Rouen used rough tactics in the first fall and suffered serious disqualification him after 21 minutes and 34 seconds of wrestling. Schenfeld won the second fall 25 minutes with a half Nelson and croch hold.

### OXFORD ATHLETES WILL COMPETE IN AMERICA IN APRIL

World Champion Runners on Way to U. S. for Philadelphia Sports.

London, April 8.—A crowd of well wishers assembled at Waterloo station yesterday to say "Au Revoir" to the Oxford athletes, who sailed on the Olympic to compete in the intercollegiate sports at Philadelphia April 25. Arnold S. Jackson, president of Oxford's team and winner of the 1000 metre at Stockholm, who is in charge, said he had great hopes of success, but in any event the visit would be a red letter day in the annals of Oxford athletics. They return home on the Mauretania April 28.

The White Star officials made an exception in favor of Lord Napier in their rule to allow nobody but the special boat trains except the transatlantic passengers. Lord and Lady Napier are bound for Paris for Easter and they dislike the small channel boats. They prevailed on the officials to let them travel on the Olympic special to Southampton and embarked thereon, the liner crossing to Cherbourg. Among the passengers for New York are Lord and Lady Hyde, who are returning to their Canadian ranch, and David Devant, famous London illusionist, and wife.

### TO WRESTLE PAT CONNOLLY TONIGHT

Above is shown Kid Sandow (138 pounds) and one of the best heavyweight wrestlers in the west. He will tackle the British champion Pat Connolly tonight at the Bijou theater. Connolly weighs 212 pounds and Berg 225.

### BILLY RYLE AND H. H. SUTTON WILL PLAY 18.2 BALK LINE BILLIARDS

Recent Arrivals in Edmonton Will Stage High Class Exhibition of the Green Cloth Game Next Week at Empire and Reno Billiard Halls.

The first game of 18.2 balk line billiards was played last night between Billy Ryle and H. H. Sutton. These two players have moved to Edmonton from the States, and will make Edmonton their home in the future. Mr. Ryle has been in the billiard business for years and has bought an interest in the Empire billiard parlors. Mr. Sutton is connected with the Reno billiard parlor. Mr. Ryle comes from Kansas City, Mo., and is the champion of the state. Mr. Sutton is from Spokane, Washington, and won the last title tourney he played there, and is one of the strongest players in the northwest. This game will be for a purse of \$200, played in three blocks, Monday, Tuesday and Wednesday nights. The first game will be at the Empire. Monday, the second game at the Reno, the third at the Empire Wednesday. Each block will be 250 points to 100. Mr. Ryle giving a handicap of 100 points in the match. Mr. Ryle plays 750 points and Mr. Sutton 600. Ryle will have to cut the handicap, and a fast game can be looked for. The game will be played on a 5 x 10 regulation table made by the Brunswick Balk company which the Empire has just had put in. Arrangements have been made for seating the public. Ryle and Sutton are both practicing every morning at their rooms for the match. Admission will be free to these games. All games will start at 8 o'clock.

### JENNINGS MAY TRADE PLAYER TO BOSTON CLUB

Detroit, April 9.—Del Gainer, one of the veterans of the Detroit baseball club may play first base for the Boston Americans this season. Word to that effect was received here last night from Manager Jennings, who is with one of the Detroit squads in Cincinnati.

Jennings said he received cash offers from Manager Carrigan of Boston for Gainer's release, but intends to keep him at least until the season is under way. Gainer has been hitting in splendid form in the practice game and Jennings believes he may recover his old time form. Jennings also sent word that Dubois would pitch the opening game against St. Louis Tuesday.

Don't Like Rugby in California.  
Los Angeles, April 9.—Rugby football, after three years' test at the university of Southern California has been found wanting according to a statement made today by Warren P. Howard Jr., athletic manager of the university, following a decision of the faculty athletic committee yesterday to return to the American game.

### VANCOUVER RELISHED CLAYTON'S OFFERINGS AND WON LAST GAME

Edmonton Eskimos Lost Third Game to Beavers—Clayton was Hit Hard and Let Game Slip—Spaulding Pitched First Seven Innings.

Vancouver, April 9.—Vancouver made out six hits had been made from his delivery. Back Clayton took the reins in the eighth, but the Beavers were at him like a flash and gathered four hits and a base on balls, and scoring three additional runs. Reuther held the mound for Vancouver for the first six innings and allowed three hits, and they who followed him was hit twice in the eighth but allowed no score. Lou Nordyke playing first had fifteen put-outs to his credit, and the entire Edmonton infield played fairly consistent ball. The Eskimos left last night for Seattle to engage in a three game series there, after which they will sail for Victoria for a number of games.

### BARBARIANS RUGBY FOOTBALL CLUB AT THE TRAINING CAMPS

At a general meeting of the above club, held in the Y.M.C.A. on Wednesday night, the following officers were elected for the season. President, G. G. Dunlop; vice-president, replacing Mr. Dimoline, who has left for the north country, A. J. Chalmers; secretary, treasurer, B. J. Walton, 323 Tupper Block, replacing G. V. H. Beck, no eligible owing to being a playing member; executive committee, A. J. Chalmers, J. M. Hunter, Jackson Walton and Dr. Barrow, as well as captain, vice-captain and secretary treasurer. Selection committee, A. J. Chalmers, J. M. Hunter and Jackson Walton, and captain and vice-captain, J. A. Shaw was elected captain for the coming season and S. M. Tait vice-captain. The usual practice will be held at the old Exhibition Grounds at 6:30 pm. this Thursday, and it is hoped there will be a large turnout. Notice re Saturday game will be given later.

Joe Jeannette Wins  
Liverpool, April 9.—Joe Jeannette, the American colored pugilist, last night knocked out Andrew Johnson in the fourth round.

Omaha, Neb. April 9.—Pitcher Stevenson, of the Omaha Western league team today struck out Hans Wagner with a man on third and two out. Pitcher, nevertheless had an easy time with the Westerners, winning 13 to 2.

### NEW RACING CIRCUIT FOR SASKATCHEWAN

To Promote Breeding of Light Harness Horses in Prairie Province.

Moose Jaw, Apr. 9.—At an enthusiastic meeting held here yesterday with 25 delegates representing as many towns presented it was decided to form a new racing circuit in Saskatchewan. The new circuit will be known as the Central Prairie Racing Circuit and has for its object the promotion of racing, and the encouragement of the breeding of light harness horses in Saskatchewan. The following towns and cities are included in this circuit: Estevan, Weyburn, Hudson, Moose Jaw, Lorneburg, Outlook, Bountiful, Rosetown, Kerrobert, Wilkie, Blagden, Saskatoon, Yorkton, Neillville, Balcarres and South Qu'Appelle.

It is proposed to start the circuit off with a meeting at Estevan in May, following up with Weyburn and Rosetown and then humping to the Outlook line towns and going through the schedule in the order the different points are mentioned above with the exception of Moose Jaw which comes last. The meeting here being held on August 14 and 15.

The formation of this circuit will fill a long felt want in the systemizing of horse racing for the smaller towns of Saskatchewan.

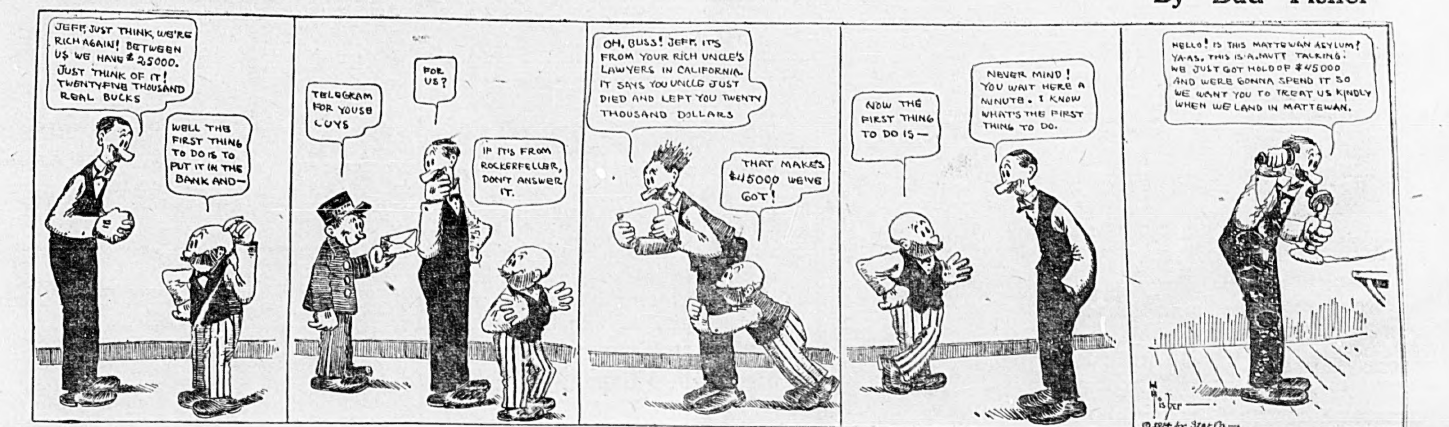

The following officers were elected: President, W. C. Badger, Outlook; Vice-President, W. C. McIntyre, Moose Jaw; Secretary, Treasurer, Ralph McIlhenney, Outlook.

Executive, Dr. J. P. Annis Bountiful and Dr. Olson Kerrobert.

**ARE BUSINESS MEN OF CITY CARELESS?**

**Stated 3,000 Letters in Post Office Daily Addressed Simply "Edmonton," CAUSES MUCH TROUBLE Occupies Time of Four Clerks in Re-addressing Mail of This Description.**

"That 3,000 letters a day, on the average, are mailed to people and addressed simply as 'Edmonton,' is the startling information secured by the committee of the board of trade which was appointed some time ago to investigate the matter of mail delivery in the city.

It was found that the number of all kinds of letters have been increasing so rapidly that the number of letters addressed simply as 'Edmonton' each day has increased to 3,000. These letters are not properly or sufficiently addressed every 24 hours—2,500 little tasks which take up the time of post office clerks to such an extent in the Edmonton post office that the men are required to do this work alone.

The most significant part of it is that by far the greater majority of these are mailed in Edmonton and many of these the street names of the addresses could be found by telephone directory.

When a letter comes to the post office addressed Edmonton, without any special address and the name of the person or firm addressed is not known to the clerks who happen to handle the letter, they are required to call on the post office to get the letter to the proper address. In the case of letters addressed to the city, the address is found in the city directory. It is re-directed. Often even then, it is found that the address does not exist.

**MAKE SUGGESTIONS WINDOW POST**

**Local Merchants Protest Against Classification and Methods. SHOULD BE FOUR CLASSES. Think Time Ought to Be Fixed for Uncovering of All Store Windows.**

Protest against the classification of the businesses entered for the window display and against the failure to classify the businesses in such a way that the display should be simultaneously uncovered for examination in general among the merchants of the city and the result of the awards made to the best window displays in the city.

Speaking of the matter of window display this morning at the meeting of the merchants' association, the merchants of the city and the result of the awards made to the best window displays in the city.

**EDMONTON'S WHOLESALE SECTION**

**Secretary F. T. Fisher of the board** of trade said this morning that if the citizens, especially those sending out large numbers of letters, took greater care in addressing their letters, a great deal of the trouble now experienced in the city deliveries would be eliminated. He advised those who do not exercise care in addressing their letters to not be surprised if the persons to whom the letters are directed do not get the letters on time, or even at all.

The post office department has issued instructions recently to post-masters to return for better direction any second class matter which is not fully addressed and the first class matter after the directory has been examined to see if the address is correct. Postmaster G. S. Armstrong does not pretend to give perfect service, but claims that it is better to have the letters and not persons and firms to use more care in addressing their mail if they wish a good delivery service.

**MAKE SUGGESTIONS WINDOW POST**

**Local Merchants Protest Against Classification and Methods. SHOULD BE FOUR CLASSES. Think Time Ought to Be Fixed for Uncovering of All Store Windows.**

Protest against the classification of the businesses entered for the window display and against the failure to classify the businesses in such a way that the display should be simultaneously uncovered for examination in general among the merchants of the city and the result of the awards made to the best window displays in the city.

**NEW INTERLOCKING SYSTEM ON C. P. R. MINIMIZES DANGER**

Montreal, April 9.—The Canadian Pacific has just installed at the Windsor station in Montreal an elaborate interlocking switch system, which not only does away with unnecessary hand work, but provides the maximum of safety, while at the same time guaranteeing rapid movement, even in the most congested portions of the mountain street, just outside the enclosed yards.

The man at the levers, of which there are 85, looks before him at an illuminated diagram on which he sees the whole track leading into the station and which are on each side of the main double track. The moment a train approaches it is put out by the lever, on the proper track; but the movement which does this is an interlocking one. That is to say, effects certain positions with respect to other movements in the yard.

The Swift Canadian Football club held a meeting at North Edmonton Tuesday evening at 8 p.m. A large number of the club members were present. It was agreed that the Football club join with the Baseball club and hold a game at North Edmonton on an early date, a very able committee being appointed to make all necessary arrangements for the same.

Each of the 85 levers has its mission. Each has relation to the safety of the train approaching it, to the yard, to the switch, to the track, to the station. The man at the lever has seen it—he heard the signal before he used it—he knows the position of the train, which, coming in on the main line, has to steer its way into the yard. All this he has to do in a matter of seconds. It is a most difficult and important job.

The illuminated diagram fascinates as it shows without words, in a matter of seconds, the position of the train, which, coming in on the main line, has to steer its way into the yard. All this he has to do in a matter of seconds. It is a most difficult and important job.

Seaweed obtain their nourishment from the water in which they grow, not from the ground in which they are rooted.

**Get Your Canadian Home From the Canadian Pacific**

An immense area of the most fertile land in Western Canada for sale at low prices, ranging from \$10 to \$30 per acre. The land is in the heart of the great Canadian wheat belt. The price is \$15 to \$25 per acre for irrigated lands. Terms one-twentieth down, balance in 12 equal annual instalments. Loan for farm development up to \$2000, also repayable in 20 years. Interest at only 5 per cent. For full particulars apply to DEPARTMENT OF NATURAL RESOURCES, Canadian Pacific Railway, 145 Jasper Avenue East, Edmonton, Alberta.

**Open House**

Realizing that the section of the city adjoining the Edmonton-Dunvegan & C. P. railway terminal was in need of a similar to Calder, surrounding the Grand Trunk shops, Hugh D. Gillies has been engaged to build a new building for a grocery store on the corner of 42nd Street and the St. Albert road, opposite the Edmonton-Dunvegan depot.

A hotel, large enough to accommodate the transient employed in the city as well as transients, will also be built at this point.

**Toronto Justice Swift**

Toronto, April 8.—Justice is not always slow in the north. In the case of Corlett, Toronto, formerly of Whitehaven, England, has learned to his cost. A letter was received by Crown Attorney Corley, at 4 o'clock Monday that Mrs. Corlett in London stating that she had been married to J. J. Corlett and had committed suicide in Toronto. Half an hour later Corlett was located and taken into custody. He was charged with the letter arrived, the erring spouse admitted his guilt and was sentenced to the penitentiary at Kingston for three years.

**License Practice**

The first license practice of the season will be held on Good Friday afternoon at the south side athletic park at 2 p.m. All players are requested to be on hand and bring their skates with them. The practice is being held under the auspices of the Strathcona Athletic association.

**NORTHERN CROWN BANK IS WINNER IN APPEAL CASE**

Decision of Chief Justice Harvey is Reversed—\$600,000 Involved.

**CLAIM THAT APPALANT RAN LUMBER BUSINESS**

Institution Awarded Costs of Appeal and of Case in Minor Court.

The Northern Crown bank has just been declared winner on appeal in an action brought by the bank against the Great West Lumber company, and involving the sum of \$600,000. The decision of the Supreme Court on Banc which sat to hear the appeal in Calgary in December last, reversed the decision previously given by Chief Justice Harvey against the bank. A very important principle was involved in the case. The Northern Crown bank had acquired a controlling interest in the lumber company and it was contended that in exercising their powers which the controlling interest gave them, the bank had contravened the clause in the bank act which prohibits a bank from, directly or indirectly, "dealing in the buying, selling or bartering of goods, wares or merchandise or engaging or being engaged in any trade or business whatsoever."

**Claim Was Denied.**  
The action was brought by the bank on a number of promissory notes for large amounts and on certain mortgages and liens given as collateral security.

**Lord's Day Alliance Active**  
Very busy with the good work, but no more efficient than the old reliable Putnam's Corn Extract, which cures corns and warts in one day. Fifty years use proves the merit of Putnam's. Use no other, 25c at all dealers.

curity. Chief Justice Harvey, who heard the case as trial judge in the early summer of last year dismissed the claim of the company for monies advanced by the bank subsequent to December, 1907 and also declared that the securities taken by the bank after that date were invalid on the ground company's business—if not in form, certainly in substance, if not directly, at least indirectly.

**Question of Interest.**  
His lordship finds that the plaintiffs are entitled to the amount claimed with the exception that interest on a mortgage of \$5,000 bear interest at five per cent only instead of eight, the latter rate being void under the bank act and that it be left to a referee to determine whether in making up the amounts of any of the notes or securities the company had been improperly charged with a larger amount than was actually and legally owing by reason of an excess rate of interest or earlier indebtedness having been charged.

Judgments were also handed down by Justice Simmonds and Stuart agreeing in the main with the judgment of Justice Deek.

The legal men engaged in the case included Wallace Nesbitt, K.C., of Toronto, and A. H. Clarke, K.C., of Calgary, for the Northern Crown Bank and R. P. Davis, K.C., of Vancouver, and C. C. McCall, K.C., of Edmonton, for the company.

The bank gets the costs of the appeal and of the court below.

**Theatres and Picture Shows**  
"FLAMING DIAGRAM" IS FINE TWO PART MONARCH THEATER

At the Monarch Theater for today only there will be shown "The Flaming Diagram," a fine two-part feature, with King Baggot and Leah Baird taking the principal parts.

The story is about a formula to the key of an inventor's invention. The spies managed to secure the diagram supposed to lead to the hiding place of the formula, but they were unable to read it. If afterwards comes back to the inventor's son.

Erickson, inventor of high explosives, would not sell the secret, as he wishes his family, which consisted of son and daughter, to still benefit by his formula in case of his death.

His daughter Lillian is in love with a clerk in the war department, who is, in reality, a face spy. Another country tries to buy the explosive, but Erickson's patriotism will not permit him to sell. To prevent the secret from perishing at his death he starts to write out the formula. Lillian's sweetheart, Brock, watches over his shoulder. This is seen by young Erickson, who orders Brock from the house. Lillian protests until told of what he had done, when she, too, denounced her lover. The inventor, to safeguard himself and family, writes out the formula in a way only his children will be able to read it.

Brock learns of this and at the instigation of his chief hires two crackmen to open the safe and secure the formula. The inventor dies suddenly. The crackmen are interrupted in their work by a messenger sent to secure the formula. They capture the messenger and secure the envelope. It is found to contain a diagram of some bottles and a blank sheet of paper with instructions that the key is in one desk drawer. Young Erickson, judging they will return for the key, lies in wait for them. He captures them, but in securing the envelope he is as much surprised as they were, for the key has a tag on it to turn the diagram.

While he and his sister are puzzling over this, his cigarette, accidentally lights the blank sheet of paper, which burns in a peculiar manner and leaves an intricate design. When fitted over the diagram of the bottle it gives them the formula.

Tomorrow and Saturday the Monarch will offer Fantomas in "The Tragedy of the Masked Ball." This is the fourth series of the original Fantomas stories in four parts.

**MOOSE BAND CONCERT**  
OLD PRESBYTERIAN CHURCH FRIDAY NIGHT

The Moose Band concert has been steadily practicing for some time under Mr. G. A. Stone, will give a concert in the old Presbyterian church tomorrow night, commencing at 8:30 sharp. The program will include "Salubriousness" and "Sounds from Scotland." An attractive feature will be a lady cornet soloist.

**Horticulturalists Meet Wednesday.**  
Professor S. J. Lewis, professor of biology, will deliver a lecture on the raising of berries on horticulture, on Wednesday next the 15th inst., at room 100 Assiniboia hall, University of Alberta, Edmonton south. All who are interested in horticulture should hear this lecture as it is sure to be both interesting and instructive. This is a public meeting, everyone is welcome, and a special invitation is given to ladies.
